The telephone! A product of over fifty years of continuous research and study by competent scientists and engineers! An instrument so thoroughly developed, so highly sensitive and so delicately adjusted as to be able to transmit properly the feeble voice currents over circuits thousands of miles long.

A modern telephone of the desk type is composed of over 200 separate parts, embodying the use of 19 different materials drawn from all corners of the earth. It can be easily understood, therefore, that for such an instrument to give the best results at all times it is necessary that the greatest care be exercised in handling it. For, while substantially built, it will not withstand the effects of rough usage.

To handle your telephone carefully is to aid in insuring good service.

GENERAL INFORMATION

APPLICATIONS FOR TELEPHONE SERVICE

Applications for service, rates, changes in service, directory listings, direct advertising or other information, may be made by telephone, by mail, or in person to the Company's Business Office.

ACCOUNTS FOR SERVICE

Accounts are rendered monthly and are payable when rendered. Each subscriber's account shows charges for exchange service for one month in advance of the date of the account and Long Distance and Directory Advertising charges, if any, for one month preceding. For the convenience of our subscribers these accounts may be paid at any of the branch banks of the Royal Bank of Canada.

SERVICE DIFFICULTIES

Our aim is to render service that will be satisfactory to our customers. We realize that difficulties will occur despite all our efforts to avoid them. If at any time difficulties are not promptly corrected or unsatisfactory conditions persist, we will appreciate your communicating the facts to the Manager.

IDENTIFICATION OF EMPLOYEES

All employees of the Company whose duties require them to enter the premises of subscribers or others, are required to wear a badge similar to the accompanying illustration or to produce a card of identification from the Manager. Any person claiming to be an employee of the Company who is without this card or badge should be refused admission, and the Manager be notified at once by telephone.

INTERFERENCE WITH APPARATUS

A Subscriber is not allowed to remove or otherwise interfere with the wire connections or parts of any telephone apparatus leased from this Company, or make attachments thereto.

SUBSCRIBERS' USE OF LINES

The right of the Subscriber is to use the instruments and connecting lines, except public telephones, where the Company may place them, under such rules as the Company may from time to time prescribe. He shall not extend their use to other individuals, except his servants upon his business; nor shall they be used for any tolls or consideration to be paid by any person other than the Subscriber; nor does this confer on him the right to use the instrument of another Subscriber.

DIRECTORIES

The Company assumes no liability whatever for damages occurring from errors or omissions in the making up and printing of this book. Subscribers are, however, requested to promptly report to the Business Office, by telephone or in writing, any error which may appear in this issue so that it may be corrected in the next issue.

This Directory is the property of the Company. It is printed for the exclusive use of the Company's patrons and is loaned to its Subscribers. All persons are cautioned against reproducing its contents.

RURAL PARTY LINE INSTRUCTIONS

Always listen before ringing, to ascertain if the line is in use and thus avoid interrupting a conversation that may be in progress.

Before calling a subscriber on your line make sure of his number by consulting the directory, then ring, being careful to make the signal distinct. The signal to give is indicated by the number following the letter "r". The first figure following the letter "r" represents the number of long rings, and the second figure, the number of short rings. For example, to call r-24, give two long followed by four short rings. Do not press the push-button on your instrument when calling a subscriber on your line.

To call a subscriber on another line, signal the operator and give her the number. To signal the operator, press push-button while ringing.

When conversation is finished, replace receiver and give one quick ring-off. Do not press push-button while ringing off.

Conversation should not exceed five minutes' duration. Bear in mind that while you are using the line other subscribers are unable to do so.

*In calling these points it is not necessary to ask for "Long Distance." Just give the local operator the name of the distant town and the telephone number and hold the line while connection is established.

The 10c rate is for a five minute talk; all others three minutes

STATION-TO-STATION CALLS

—where you will speak to anyone within reach at the distant telephone. This type of call is quickest and cheapest. Reduced rates are effective from 7:00 p.m. to 8:30 p.m. and further reductions from 8:30 p.m. until 4:30 a.m.

PERSON-TO-PERSON CALLS

—where you specify that a particular person is desired.—

Because of the greater service given in summoning a specified person to the telephone this type of call takes a higher rate. In the event of the call not being completed a small charge for reports is made as shown above. There are no reductions on Person-to-Person calls during the evening or night hours.

On Appointment calls the operator makes the appointment with the distant party.

On Messenger calls the messenger charge is added to the Person-to-Person rate.

Advertising Pays Well

—when it reaches just the class of customer
you are anxious to secure

THAT IS ONE REASON WHY

Telephone Directory Advertising
PAYS BEST

A big industry—rush orders—men and machinery working at top speed! A busy executive pondering a weighty matter—an important issue is at stake! The man who can supply the required information is in another town—many miles away.

The executive turns to the telephone!

"Long distance, please."

In a few moments the required information comes over the wire, clearly and accurately. Costly delay is avoided and shipment is made according to schedule.

*Just another instance of the
efficiency of Long Distance
Telephone Service!*
